

Specification

GW-800A high precision fiber cleaver		
Coating diameter	250um/900um	
Bare fiber diameter	125um	
Cleave angle capability	Typically <math><1^\circ</math> (single core)	
Cleave length	Coating diameter 250um/900um 9~16mm/10~16mm	
Blade lifetime	36,000times fiber cleaves (3,000 times 12-fiber cleaves)	
Dimension	No blade cover board	Blade cover board included
	52W*52D*32H	52W*52D*51H
Weight	260g	

Ordering Information

Model	Name	Description
GW-800A	High Precision Fiber cleaver	without fiber collector
GW-800A-C	High Precision Fiber cleaver	with fiber collector
N001068	Replacement Blade	12 positions
