

F2H One-click Ferrule Mate Cleaner

Description

Grandway provides high quality One-click Ferrule Mate Cleaner for $\phi 2.5\text{mm}$ optical ferrule. As a high precision opponents, even a little contaminants on the optical ferrule can affect the performance of the whole optical transmission system. If a optical ferrule is polluted, it is hard to make it clean again in ordinary ways for the high requirements of the cleaning equipment and the little space the ferrule left for cleaning. With the One-click Ferrule Mate Cleaner, all the problem can be solved easily. The cleaner is composed with special cleaning reel, extendable nozzle and guide cap of specified size. These make the cleaner meet rigorous requirements of the cleaning solution. The One-click Ferrule Mate Cleaner is absolutely your good partner in optical cleaning solution.

Part Number	Description
FMC-CT-XX-2-P-06	$\phi 2.5\text{mm}$ One-click Ferrule Mate Cleaner

Part Number	Description
FMC-CT-XX-1-P-01	$\phi 1.25\text{mm}$ One-click Ferrule Mate Cleaner

Features

- Suitable for optical connector or port with $\phi 2.5\text{mm}/\phi 1.25\text{mm}$ ferrule, such SC, FC, ST and etc.
- One click cleaning system, easy, fast and high efficiency
- More than 800 cleaning cycles
- Effective with variety of contaminants
- Composed with dust cap and guide cap for unmated ferrules
- Complied with EU/95/2002/EC Directive(RoHS)

Specification

$\phi 2.5\text{mm}$ one-click ferrule mate cleaner	
Dimension (mm)	80*13*13(standard)/115*13*13(nozzle extended)
Weight (kg)	0.1
Connector type	All $\phi 2.5\text{mm}$ connector , such as SC, FC, ST
Cleaning cycles	800 cycles
$\phi 1.25\text{mm}$ one-click ferrule mate cleaner	
Dimension (mm)	80*13*13(standard)/115*13*13(nozzle extended)
Weight (kg)	0.1
Connector type	All $\phi 1.25\text{mm}$ connector , such as LC, MU, E2000
Cleaning cycles	500 cycles
