

TJ07MW217 Measuring Wheel

Descriptions

The heavy-duty distance measuring wheel is ideal for laying out and measuring utility lines, road work, and other types of construction. Light weight design makes it easy to use and reducing fatigue.

The folding handle design requires minimal storage space and fits conveniently inside padded storage bag.

Internal axle bearings provide for long life under a wide variety of applications. 6-figure counter records long distances up to 100,000 meters, over most types of terrain. Long counter makes reading measurements easy.

Handgrip brake eliminates unwanted measurement at turns or when maneuvering around objects not to be measured.

Green color makes it very bright and conspicuous.

Specifications

Measuring range: 0-99999.9M

N.weight: 2.9kgs

Diameter of wheel: 318mm

Extend length: 1100mm

Folded length: 600mm
