

TJ07RCXXX Rods Duct Continuous/ Duct Rodder

Description

Fibertel's Rods Duct Continuous are excellent tools for pulling drawrope and plastic sub tubes through underground PVC duct.

The Rods can be supplied with and without Frames (Cages). The smaller sizes 4-6mm are normally supplied on Frames without Wheels and the larger sized Rods 9-16mm are supplied on Frames with strong Wheels.

The Rods lengths are supplied as per the customer's demands.
